

**ASBESTOS INSPECTION  
2022-2023 SCHOOL YEAR**

AHREA is a federal law enacted in 1987, which requires all school districts to re-inspect facilities for building materials containing asbestos. Our facilities have been inspected and response actions are planned to ensure a continued safe environment for our students and employees.

Activities include training of the maintenance staff to prevent disturbance of asbestos and periodic re-inspection and surveillance by trained personnel. Details of such activities are described in the AHREA Management Plan, which is available for your review in the District Office. If you have any questions or concerns, please feel free to contact Gary Shaffer at 585-229-4176 or email Gary Shaffer at [gshaffer@honeoye.org](mailto:gshaffer@honeoye.org).

**PESTICIDE APPLICATION  
2022-2023 SCHOOL YEAR**

In the event an emergency application is necessary to protect against an imminent threat to human health, a good faith effort will be made to supply written notification to those on the 48 hour prior notification list. If you would like to receive the 48 hour prior notification of pesticide applications that are scheduled to occur in your school, please contact your Honeoye CSD pesticide representative:
